

IOWA STATE UNIVERSITY

Department of Economics

Before we record a video of you demonstrating a task, please familiarize yourself with the script that you will be reading for the video. Here is the script in italics.

For the purposes of this study, I am your boss and you will be working for me.

On the next page, you will play a simple button-pressing task. The object of the task is to alternately press the `a' and `b' buttons on your keyboard as quickly as possible for ten-minutes. Every time you successfully press the `a' and then the `b' button, you will receive a point. Note that points will only be rewarded when you alternate button pushes: just pressing the `a' or `b' button without alternating between the two will not result in points.

Buttons must be pressed by hand only (key-bindings or automated button-pushing programs/scripts cannot be used) or task will not be approved.

Feel free to score as many points as you can.

As a bonus, I, your boss, will be paid 1 cent for every 100 points that you score.

Here is an example video
