

Before we record a video of you demonstrating a task, please familiarize yourself with the script that you will be reading for the video. Here is the script in italics.

Hi, I am another participant in this study who is matched to you. In this study, you will work on a simple button-pressing task, and I will earn some money depending on how well you do on the task.

On the next page, you will play the task. The object of the task is to alternately press the `a' and `b' buttons on your keyboard as quickly as possible for ten minutes. Every time you successfully press the `a' and then the `b' button, you will receive a point. Note that points will only be rewarded when you alternate button pushes: just pressing the `a' or `b' button without alternating between the two will not result in points.

Buttons must be pressed by hand only (key-bindings or automated button-pushing programs/scripts cannot be used) or task will not be approved.

Feel free to score as many points as you can.

I will earn 1 cent for every 100 points that you score.

In appreciation to you for performing this task, I have decided to pay you extra 20 cents as bonus. Your score will not affect your payment in any way.

Your score will not affect your payment in any way.
